

# Statistics for the Voluntary Sector

**GMCVO is hosting an event for the voluntary and community sector to showcase statistics on issues that matter to your work.**

**Come along and learn how to unlock the potential of a range of Internet-based statistical sources for your organisation.**

**The event will feature workshops and presentations on topics including:**

- Health (including mental health)
- Indices of Multiple Deprivation
- Employment, education and skills
- The Neighbourhood Statistics website

**All workshops will be as hands-on as possible and will cover the following:**

- An overview of the sources of data that are available on the Internet
- How to access the data
- How to tailor data to your needs (ie for a certain geographical area and/or client group)
- The formalities of using the data (ie data protection, permissions, citations, legal concerns)
- The uses this data could reasonably be put to and uses that it is not appropriate for

*Participants will have the chance to shape the workshop content by submitting queries/examples/problems alongside their booking form. This will then be taken into consideration by the workshop facilitators.*

**Date: Wednesday 8th July 2009: Time: 10am – 3pm**
