

In-House CPD Training Courses

Aston CPD Centre specialises in providing courses to meet the demands of busy practising professionals. Courses are designed so your staff obtain the maximum benefit from the subjects offered. Aston CPD Centre staff will work closely with you to formulate training that meets your staff needs and your budget. Once specific requirements are agreed, we engage experienced professional tutors and facilitators to deliver the training at your chosen venue.

We offer a broad range of topical and relevant courses, designed to fit one to three days duration and able to achieve the CPD needs of staff at all levels, from management to site operatives. Please see below list of In-House courses immediately available and check our website www.astoncpdcentre.co.uk for further details of our in-house and day course programmes. **This is the most cost effective means of providing training**
